History

Cyrus, the Great

Old Testament, Ezra Chapter 1

Cyrus king of Persia released God's people from their captivity, with license to return and build the temple in Jerusalem: and restored the holy vessels which Nabuchodonosor had taken from them.

Darius, the Great

Old Testament, Ezra Chapter 6

Darius finds the decree of Cyrus in the archives of Achmetha (Hamadan), and directs Tatnai not to disturb the Jews in their work. He also exempts them from tribute, and supplies everything necessary for the offerings. The Temple is finished in the month of Adar, in the sixth year of Darius, and is dedicated with great solemnity.
